

Statement on Assisted Dying

Lindsey Lodge Hospice and Healthcare acknowledges the value of life and the importance of dignity in death. We provide and promote the highest quality palliative and end of life care.

Assisted dying is the intentional shortening of life where an individual is not immediately dying from natural causes.

Our palliative care services seek to relieve suffering without intending to shorten or prolong life. Palliative care includes the right to decline medical interventions and optimise comfort whilst dying from natural causes.

Assisted dying is illegal in the UK at the present time and Lindsey Lodge Hospice and Healthcare has not and will not campaign on this issue. The organisation aims to support investment to improve and expand access to high quality palliative and end of life care for patients and their families or carers.
